AWARDS

- "Best Employee of the Quarter" (Q1 2025) for outstanding performance and system optimization - **KYL**
- Received the "Spotlight Award" for exceptional individual contribution to high-impact internal projects.

OBJECTIVE

I'm a Full-Stack Developer with around 2 years of hands-on experience building web applications using Angular, React, PHP, and ASP.NET Core. Skilled in both front-end and back-end development, with strong expertise in SQL Server and MySQL. I've deployed and managed scalable applications on Microsoft Azure with a focus on performance, reliability, and security. Proficient in modern web technologies, API development, and agile workflows. I'm currently open to remote (WFH) and night shift opportunities where I can contribute to impactful, scalable products.

SKILLS

- **Front-End**
 - HTML(5), CSS(3), Bootstrap, Tailwind
 - JavaScript, JQuery, Angular, React JS, Next JS
- **Back-End**
 - .NET CORE, PHP(CORE & API)
 - SQL Server, Mysql
- **Others**
 - Azure, Docker, CI/CD, Redis, Web Security(OWASP), SEO, Git, Figma, Linux, Azure DevOps

EXPERIENCE & PROJECTS

1 . KYL, Thanjavur

2024 - 2025

- Developed a complex backend system from scratch using .NET Core and SQL Server with Redis caching to improve performance and stability.
- Optimized SQL queries to follow best practices, achieving response times under 300ms.
- Implemented advanced security standards for data protection.

2 . UBTIINC, Chennai

2023 - 2024

- Designed and developed a full ESG Dashboard and Employee Portal using .NET and SQL Server.
- Independently built and deployed an internal Employee Management Portal from scratch, handling the entire process from development to production.
